PERFORMANCE WORKWEAR

# JNPSS-YNA PREMIUM SOFTSHELL JACKET

## *What am I best used for?*

I am made from a 3ply windproof fabric that has fleece on the inside so I am best for areas with cold wind. I am great for people that don't need to spend half the day in the rain.

## *What makes me so good?*

- I'm windproof** This means wind won't penetrate through the fabric I'm made from.
- I look sharp** Hi-vis products don't have to come at the cost of presenting well. This garment looks good on!
- I'm flexible** The softshell fabric I am made from is super flexible and pliable giving better movement.

## SC0108-BLK POLYESTER WORK SHIRT

### *What am I best used for?*

Residential sparkies, Auto electricians, mechanics, this shirt is great for jobs that don't require any hi visibility.

### *What makes me so good?*

- I'm breathable** this shirt includes underarm and back panel venting to keep you cooler.
- I look good** Not only am I functional but I am also a sharp looking shirt, great as a team uniform.

# TRBPCLW-CHA STRETCH TROUSERS

## *What am I best used for?*

Running, jumping, crouching, climbing and excellent for getting into really tight tricky spots.

## *What makes me so good?*

- I'm flexible** These pants are made from a stretch fabric offering a better range of movement.
- Great fit** The fit we have used is second to none!
- I look great** Not only am I functional but I am also a damn good looking trouser!
- I'm tough** While I am lightweight I am also stronger than a lot of ripstop garments.

*Come to our stand  
for the competitions!*
